over the course of the long eighteenth century a network of some fifty women
writers working in french english dutch and german staked out a lasting position in
the european literary field these writers were multilingual and lived for many years
outside of their countries of origin translated and borrowed from each others works
attended literary circles and salons and fashioned a transnational women s literature
characterized by highly recognizable codes drawing on a literary geography of
national types women writers across western europe read translated wrote and
rewrote stories about exceptional young women literary heroines who transcend
the gendered destiny of their distinctive cultural and national contexts these
transcultural heroines struggle against the cultural constraints determining the

sexualized fates of local girls in heroines and local girls pamelal cheek explores the rise of women's writing as a distinct transnational category in Britain and Europe between 1650 and 1810 starting with an account of a remarkable tea party that brought together Frances Burney, Sophie von La Roche, and Marie Elisabeth de La Fayette in conversation about Stéphanie de Genlis. She excavates a complex community of European and British women authors in chapters that incorporate history, network theory, and feminist literary history. She examines the century and a half literary lineage connecting Madame de Maintenon to Mary Wollstonecraft, including Charlotte Lennox and Françoise de Graffigny, and their radical responses to sexual violence, neither simply a reaction to nor collusion with patriarchal and national literary forms, but rather both women's writing offered an invitation to group membership through a literary project of self-transformation. In so doing, argues Cheek, women's writing was the first modern literary category to capitalize transnationally on the virtue of identity, anticipating the global literary marketplace's segmentation of affinity-based reading publics and continuing to define women's writing to this day.

The author of more than 2,000 books and pamphlets, Voltaire (François-Marie Arouet, 1694–1778) was one of the most prolific writers of the eighteenth century and also one of the wittiest and most insightful. This unique collection of over 800 of Voltaire's wisest passages and choicest *bons mots* runs the gamut on topics from adultery to Zoroaster in both English and French, drawing from a wide range of his publications, private letters, and remarks recorded by his contemporaries. The quotable Voltaire includes material never before gathered in a single volume; English translations appear alongside the original French, and each quote is thoroughly indexed and referenced with page numbers for both the first known publication and the most recent edition of Voltaire's works. The book also features over 400 quotes about Voltaire, including commentary by eighteenth-century luminaries like Samuel Johnson, Catherine the Great, Casanova, and John Adams, as well as an eclectic assortment of modern-day personages ranging from Winston Churchill and Jorge Luis Borges to Mae West and Mike Tyson. Lavishly illustrated with nearly three dozen images of Voltaire-related art, this collection opens with a scholarly essay that recounts the great man's life and reflects on his outsized influence on Western culture. Whether you are a Voltaire scholar or a neophyte, the quotable Voltaire is the perfect introduction to a brilliant mind.

Public reading programs are flourishing in many Latin American cities in the new millennium. They defy the conception of reading as solitary and private by literally taking literature to the streets to create new communities of readers, from institutional and official to informal and spontaneous. The reading programs all use

public space distribute creative writing to a mass public foster collective rather than individual reading and provide access to literature in unconventional arenas the first international study of contemporary print culture in the americas public pages reveals how recent cultural policy and collective literary reading intervene in public space to promote social integration in cities in colombia argentina brazil mexico and chile marcy schwartz looks at broad institutional programs such as unesco world book capital campaigns and the distribution of free books on public transportation as well as local initiatives that produce handmade books out of recycled materials known as cartoneras and display banned books at former military detention centers she maps the connection between literary reading and the development of cultural citizenship in latin america with municipalities cultural centers and groups of ordinary citizens harnessing reading as an activity both social and literary along with other strategies for reclaiming democracy after decades of authoritarian regimes and political violence as well as responding to neoliberal economic policies these acts of reading collectively in public settings invite civic participation and affirm local belonging
